# ADDICTION RECOVERY

The road within addiction recovery isn't a traffic circle. Your reoccurring uncomfortable vulnerability deserves to know the strength hiding within you. Sacred healing from me, Ascended Master Saint Jacqueline, will help you know the road of trust you chose by accepting healing in this way.

Sacred Healing is a gentle healing for blocked or deepened energy, driving addictions and prolonging recovery.

Facilitated addiction centers are working, but with the addition of sacred healing from myself, the recovery period shortens.

## WHAT WORKS?

- \*Belief healing is possible.
- \*Being open to receive healing for the unknown in connection to addiction.
- \*The desire for freedom being bigger than the fear of vulnerability.
- \*Knowing survival instinct needs the deepened energy as a reminder, but thriving uses the knowledge, not the depth of darkness that became.
